# Rahul Kumar Pandey

**LinkedIn:** linkedin/Rahulpandey2006 **E-mail:** rahulpandey7367@gmail.com
**GitHub:** github/Raahulpandey **Mobile:** +91-9267991067

## SKILLS

- **Languages**: Java, C++, Python, JavaScript
- **Frameworks & Libraries**: HTML and CSS, NodeJS, Express, React
- **Tools & Platforms**: MySQL, MongoDB, Git, Postman, Docker, MS-Excel, Power BI, Tableau
- **Core CS Fundamentals**: DBMS, OS, CN, SQL, OOP
- **Soft Skills**: Time Management, Leadership, Problem-Solving, Adaptability, Quick Learner

## • PROJECTS

**E-Shopper – Full-Stack E-Commerce Platform:** Nov' 25 – Dec' 25

- Engineered a scalable e-commerce backend with Node.js, Express.js, and MongoDB, delivering 20+ secure REST APIs. Enabled product, user, cart, and order operations supporting 200+ active test users.
- Implemented secure user authentication and authorization using JWT and bcrypt, protecting customer personal data and order history.
- Boosted backend efficiency by reducing API latency by 30% through optimized querying and middleware.
- Applied MVC architecture and layered validation for maintainable and secure data flow.
- **Tech** : Node.js, Express.js, MongoDB, REST API, Backend Development

**NGO Connect – Development for NGO Website:** Aug' 25 – Oct' 25

- Architected a secure backend with JWT authentication and role-based permissions (admin, donor, volunteer).
- Delivered 15+ production-ready APIs for authentication, data management, and content handling.
- Strengthened platform security using bcrypt hashing, structured routing, and modular architecture.
- Improved backend reliability and scalability by organizing features into reusable service modules.
- **Tech** : Node.js, Express.js, MongoDB, JWT, Bcrypt, Role-Based Access Control, API Security.

**MediPredict – Healthcare Treatment Analysis System:** Nov' 25 – Dec' 25

- Built an ML pipeline analyzing 10,000+ medical records to predict treatment outcomes.
- Integrated multiple scikit-learn models with data preprocessing and feature engineering to increase accuracy by **20%**.
- Generated actionable insights with Matplotlib through trend analysis and visualization.
- Implemented a structured workflow for data ingestion, cleaning, model training, and evaluation.
- **Tech** : Python, NumPy, Pandas, Matplotlib, scikit-learn, Machine Learning, Data Visualization

## TRAINING

**Java Maestro: Hands-On Training on Developing GUI Applications – Lovely Professional University** Jun' 25 – Jul' 25

- Developed a secure Java-based quiz application using JWT authentication with 2 user roles (admin/user).
- Designed a Java Swing UI with 5+ interactive screens including login, quiz, and result pages.
- Implemented quiz logic supporting 100+ questions, real-time score tracking, and secure data handling.
- Tech : Java, Swing , Java JWT, OOPS Concepts, MySQL

## CERTIFICATES

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Dec' 25
- Cloud Computing - NPTEL IIT Kharagpur — Nov' 25
- Computational Theory: Language Principle & Finite Automata Theory — Aug' 25
- CHATGPT – 4 prompt Engineering: CHAT GPT Generative AI & LLM | Infosys — Jun' 25

## ACHIEVEMENTS

- Solved 100+ coding problems across LeetCode, GFG & HackerRank, sharpening problem-solving skills. — Sept' 25
- Earned Top badges on LeetCode and HackerRank, including a 50 Days Badge for consistent performance. — Nov' 25

## EDUCATION

**Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.75** Aug' 23 - Present

**HM Sr. Sec. School** Gurugram, Haryana
Intermediate; **Percentage: 73.3%** Apr' 22 – Mar' 23

**R N S D P S** Arrah, Bihar
Matriculation; **Percentage: 83%** Apr' 20 - Mar' 21
